

**Science Benchmark Results**

Name \_\_\_\_\_ Date \_\_\_\_\_

Following each unit of science study, our school district administers a cumulative science benchmark test. This test is a multiple choice test given through Canvas. It is intended to mimic SCPASS that your child will complete in May. The benchmark score is not required to be calculated into student averages, but is used to help guide further teaching and study.

Your child's score on the **Characteristics & Growth of Organisms** benchmark is \_\_\_\_\_.

As you go about your normal daily routine and have conversations with your child, the following are ideas that may help further your child's progress in science.

- "Classify It" app
- Information and game for classifying organisms into mammals, reptiles, amphibians, birds and insects: [https://www.pbslearningmedia.org/asset/lsp07\\_int\\_animalclass/](https://www.pbslearningmedia.org/asset/lsp07_int_animalclass/)
- Animal Groups beginning classification:
