

Tour Tatanka Bison Ranch

Name _____ District email _____

Would you be interested in bringing your students on a tour of Tatanka Bison Ranch for a field study? If so, why?

Please use the space to list concepts related to your content area that you note along the tour.

For Example, Mr. Ilse, will share about how the animals are moved from one field to the next for grazing. The reason for this is because it mimics their natural migratory behavior. In the chart you would list *migration*, then *some animals are constantly on the move in search of food, we study this in our ecology unit.*

State the Concept	Briefly describe the application of the concept

If students were to tour Tatanka Bison Ranch, we would separate them into groups and rotate through several available activities, one of which would be the tour. As the planning stages proceed, your assistance in providing suggestions for stations is greatly appreciated. Remember, the stations cannot all be dependent upon the tour as some students will tour after completing the activities.

Stations can relate to any of the following categories or something unique: Science, Math, ELA, Social Studies, Art, Make it-Take it, Other _____

What would students do at the center?

What would facilitators do at the center?

What would students learn at the center?

What materials would be needed at the center?
