Study the Infographic, then answer the questions.

1	Over how many years were these data collected?
2	Although not significant, were there more or fewer adolescents using tobacco in 2013 as compared to 2015.
3	As the number of adolescents using tobacco has decreased, the number of adolescents using e-cigarettes has _____.
4	Refer to number 3. There is a correlation, but is there causation? What do you think?
5	What percent of high school students used e-cigarettes in 2015?
6	What percent of high school students used cigarettes in 2015?
7	What percent of high school students used cigars in 2015?
8	What percent of high school students used hookahs in 2015?
9	What percent of high school students used smokeless forms of tobacco in 2015?
10	Construct 2 sides of an argument between a tobacco user and a nurse. Why might the tobacco user use tobacco and what might the nurse say to encourage him/her to stop.
